

The **Van Rees Group**, headquartered in the Netherlands, distinguishes itself as one of the leading international suppliers and processors of tea. The core business is worldwide buying in bulk, trading, blending and distribution of tea. The head office is located in Rotterdam. The other 11 offices are located in Canada, United Kingdom, Egypt, Sri Lanka, Vietnam, Indonesia, Kenya, Malawi, United Arab Emirates, Russia and India. In-depth product knowledge, a sophisticated market approach and a global network form the basis for the success of the company. A long history has made the name Van Rees well known and recognised in the tea business.

The Group is part of Amsterdam Commodities N.V. (www.acomo.nl), a Dutch listed trading company specialised in food products and founded in 1908.

Van Rees has a transaction-oriented commercial culture and a strong international character, with respect for other people, cultures and practices taken for granted. The atmosphere is open, informal and pragmatic.

We are looking for a young professional who is ready for a next career step:

Junior Business Analyst

You will be working in an international environment within a small team (3FTE) at the Rotterdam head office. Together with your IT colleagues you will be managing the ERP and BI environment of the group. You will also be working closely with other departments to help them with their BI questions. This job offers you a perfect opportunity to learn many different aspects of BI, IT and business as the size of the company and team is relatively small. Your tasks will be very diverse!

Your main tasks and responsibilities:

- Keeping existing SSRS and Targit reports up-to-date
- Working closely together with the business to build new reports and analysis
- In charge of BI tools, front and back end and keeping them up-to-date (Jet Data Manager/TimeXtender, Targit, SSRS)
- Helping your colleagues in our worldwide offices with all their BI questions
- Initiate and take lead in projects to enhance and automate processes
- Assist the accounts department with risk management, management reporting and analysis
- Involved in roll-outs of the ERP system AX 2012 to foreign offices
- Supporting your IT colleagues with AX 2012 and day-to-day IT tasks

Who are we looking for:

- Young professional with a master's degree in finance (strong affinity with IT) with 2-3 years' experience in IT and more specifically BI
- Experience with SQL, SSRS and data visualization, experience with data warehouse automation would be an advantage
- You have good understanding of Data warehouse, databases and their relations
- Experience with ERP systems as Microsoft Dynamics AX2012 would be an advantage
- You can work independently and are an initiator
- Strong communicator with an excellent command of English, both written and spoken
- Eager to learn and grow
- Willingness to travel

We can offer you:

- A broad role in an ambitious and successful organisation, in a strong international working environment within an enthusiastic team
- Personal growth possibilities

Please send your application, including C.V., to:

Van Rees Group BV at hrm@vanrees.com. For further enquiries please contact Nelleke Hollanders, HR Manager, phone nr. +31 10 4021777.

Closing date for applications: 24 July 2017

Acquisition induced by this ad will not be appreciated
